INDEX TO VOL. XXIV (A)

AUTHORS' INDEX

Achyuthan, K. .. Local variations in the photoconductivity of diamond, 162.

Adarkar, S. P. .. *See* Hattiangdi and Adarkar.

Ananthakrishnan, R. .. On fluctuations of pressure and temperature in the atmosphere, 393.

Bhargawa, P. N. .. Chemical examination of the fixed oil derived from the wood of *Pterocarpus Marsupium* Roxb., I, II, 496, 501.

Chemical examination of the unsaponifiable matter of the fat from the fleshy arils of *Celastrus paniculata*, 506.

Bhatnagar, G. S., and Pandya, K. C. Condensation of aldehydes with amides, XII, 487.

Chandrasekharan, K. .. On multiple Fourier series, 229.

Chandrasekharan, V. .. *See* Ramachandran and Chandrasekharan.

Phosphorescence patterns in diamond, 182.

The thermoluminescence of diamond, 187.

The phosphorescence of diamond, 193.

Desai, R. D., and Waravdekar, W. S. Studies in the naphthalene series, XI, XII, XIII, XIV, 332, 333, 382, 389.

Dharmatti, S. S. .. *See* Prasad and others.

Doss, K. S. Gururaja .. *See* Krishnappa and others.

See Rao and others.

Gupta, Hansraj .. A congruence property of τ (n), 441.

Hattiangdi, G. S. .. *See* Prasad and others.

Hattiangdi, G. S., and Adarkar, S. P. Studies in inorgano-organic gels in pinene, VI, 295.

Kamath, I. S. .. *See* Solanki and Kamath.

Karmarkar, K. R. .. *See* Narlikar and Karmarkar.

Karunakaran, C., and Neelakantam, K. Determination of magnesium and residual manganese in rocks and minerals with 8-hydroxy-quinoline, 448.

Karve, D. D., and Kelkar, B. W. Kinetics of the hydrolysis of anilides, 254.

Kelkar, B. W. .. *See* Karve and Kelkar.

Krishnamurti, G. V., and Seshadri, T. R.	The bitter principle of *Phyllanthus niruri*, 357.
Krishnan, R. S. ..	The second order Raman spectrum of diamond, 25.
	Thermal expansion of diamond, 33.
	Temperature variations of the Raman frequencies in diamond, 45.
Krishnappa, T., Doss, K. S. Gururaja, and Rao, Basrur Sanjiva	Equilibrium surface tension of aqueous solutions of nekal BX and the effect of salts, 261.
Mahadevan, C. ..	X-ray studies of peaty lignites and anthracitic coals, 216.
Mandan, Sahib Ram ..	Umbilical projection, 43[illegible].
Menon, P. Kesava ..	Some congruence properties of the ϕ-function, 443.
Murti, V. V. Sreerama, Row, L. Ramachandra and Seshadri, T. R.	5 : 6 : 7 : 8-hydroxyflavonols, Part II, 233.
Narlikar, V. V., and Karmarkar, K. R.	Conditions of plane orbits in classical and relativistic fields, 451.
Neelakantam, K. ..	*See* Karunakaran and Neelakantam.
Pandya, K. C. ..	*See* Bhatnagar and Pandya.
Prasad, B. B. ..	Production of *Joshi-Effect* under *Uni-* and *Bi*-electrode excitation, 514.
Prasad, Mata, Dharmatti, S. S., and Hattiangdi, G. S.	Studies in inorgano-organic gels in pinene, V, 287.
Rajagopalan, C. ..	Studies in charnockites from St. Thomas Mount, Madras, I, 315.
Ramachandran, G. N. ..	On the crystal symmetry of diamond and its X-ray reflections, 58.
	On the nature and origin of the laminations observed in diamond, 65.
	The luminescence of diamond excited by X-radiation, 81.
	X-ray topographs of diamond, Part II, 95.
Ramachandran, G. N., and Chandrasekharan, V.	Luminescence as "Forbidden" electronic transitions in diamond, 176.
Ramanathan, K. G. ..	Variations in the absorption of infra-red radiation by diamond, 130.
	The absorption of ultra-violet radiation by diamond, 137.

	The absorption spectrum of diamond in the visible region, 145.
	The infra-red absorption spectrum of diamond, 150.
Raman, C. V., and Ramaseshan, S.	The crystal forms of diamond and their significance, 1.
Ramaseshan, S. ..	The Faraday effect in diamond, 104.
	The cleavage properties of diamond, 114.
	A theory of the crystal forms of diamond, 122.
	See Raman and Ramaseshan.
	Determination of the magneto-optic anomaly of some glasses, 426.
Rao, Basrur Sanjiva ..	*See* Krishnappa and others.
	See Rao and others.
Rao, G. N. Subba, Doss, K. S. Gururaja, and Rao, Basrur Sanjiva	Aging of surfaces of solutions, VI, 277.
Rao, K. Visweswara, and Seshadri, T. R.	Colouring matter of the flowers of *Hibiscus vitifolius*, 352.
Rao, M. Srirama ..	Geology and petrography of the Bezwada and Kondapalle hill ranges, I, 199.
Rao, M. Visweswara ..	Overtone and combination lines in the Raman spectrum of chloroform, 510.
Rao, N. V. Subba, and Seshadri, T. R.	Chemical examination of plant insecticides, I, II, III, 344, 365, 465.
Rao, P. Ramachandra, and Seshadri, T. R.	Constitution of populnin, 456.
Rendall, G. R. ..	Geometric patterns of fluorescence in diamond, 168.
Row, L. Ramachandra ..	*See* Murti and others.
Sastri, V. D. Nageswara, and Seshadri, T. R.	5 : 6 : 7 : 8-hydroxyflavonols, Part III, 238.
	Synthesis of 5 : 7 : 8-hydroxyflavones and their derivatives, 243.
Seshadri, T. R. ..	*See* Murti and others.
	See Sastri and Seshadri.
	See Rao and Seshadri.
	See Krishnamurti and Seshadri.
Seshadri, T. R., and Venkateswarlu, V.	5 : 6 : 7 : 8-hydroxy-flavonols, IV, 349.
Solanki, D. N., and Kamath, I. S.	The electrolytic preparation of hydrogen peroxide, I, 305.

Venkataraman, C. S. .. A new identical equation for multiplicative functions of two arguments and its applications to Ramanujan's sum C_M (N), 518.

Venkateswarlu, P. .. A new band system (Cordes bands) of iodine, 473 Emission bands of halogens, I, 480.

Venkateswarlu, V. .. *See* Seshadri and Venkateswarlu.

Waravdekar, W. S. .. *See* Desai and Waravdekar.

TITLE INDEX

Aldehydes, condensation, with amides, XII (Bhatnagar and Pandya), 487.

Anilides, hydrolysis, Kinetics (Karve and Kelkar), 254.

Atmosphere, fluctuations of pressure and temperature (Ananthakrishnan), 393.

Bezwada and Kondapalle hill ranges, geology and petrography, I (Rao), 199.

Celastrus paniculata, fleshy arils, unsaponifiable matter from, chemical examination (Bhargava), 506.

Charnockites from St. Thomas Mount, Madras, studies, I (Rajagopalan), 315.

Coals, peaty lignites and anthracitic, X-ray studies (Mahadevan), 216.

Congruence properties, some, of the ϕ-function (Menon), 443.

Congruence property of τ (n) (Gupta), 441.

Diamond, absorption of infra-red radiation, variations (Ramanathan), 130.

Diamond, absorption of the ultra-violet radiation (Ramanathan), 137.

Diamond, absorption spectrum, in the visible region (Ramanathan), 145.

Diamond, a theory of the crystal forms (Ramaseshan), 122.

Diamond, fluorescence, geometric patterns (Rendall), 168.

Diamond, infra-red absorption spectrum (Ramanathan), 150.

Diamond, luminescence as "forbidden" electronic transitions (Ramachandran and Chandrasekharan), 176.

Diamond, luminescence, excited by X-radiation (Ramachandran), 81.

Diamond, phosphorescence (Chandrasekharan), 193.

Diamond, phosphorescence patterns (Chandrasekharan), 182.

Diamond, photoconductivity, local variations (Achyutan), 162.

Diamond, Raman frequencies, temperature variations (Krishnan), 45.

Diamond, the cleavage properties (Ramaseshan), 114.

Diamond, the crystal forms, and their significance (Raman and Ramaseshan), 1.

Diamond, the crystal symmetry, and its X-ray reflections (Ramachandran), 58.

Diamond, the Faraday effect (Ramaseshan), 104.

Diamond, the laminations observed, on the nature and origin (Ramachandran), 65.

Diamond, thermal expansion (Krishnan), 33.

Diamond, thermo-luminescence (Chandrasekharan), 187.

Diamond, the second order Raman spectrum (Krishnan), 25.

Diamond, X-ray topographs, II (Ramachandran), 95.

Flavones, 5 : 7 : 8-hydroxy-, synthesis, and their derivatives (Sastri and Seshadri), 243.

Flavonols, 5 : 6 : 7 : 8-hydroxy-, II (Murti and others), 233; III (Sastri and Seshadri), 238; IV (Seshadri and Venkateswarlu), 349.

Gels, inorgano-organic, in pinene, studies, V (Prasad and others), 287; VI, (Hattiangdi and Adarkar), 295.

Glasses, some, magneto-optic anomaly, determination (Ramaseshan), 426.

Gossypin, constitution, I (Rao and Seshadri), 375.

Halogens, emission bands, I (Venkateswarlu), 480.

Hibiscus vitifolius, flowers, colouring matter (Rao and Seshadri), 352.

Hydrogen peroxide, the electrolytic preparation, I (Solanki and Kamath), 305.

Iodine, a new band system (Cordes bands) of (Venkateswarlu), 473.

Joshi-effect, production, under *uni-* and *bi*-electrode excitation (Prasad), 514.

Magnesium and residual manganese, determination, in rocks and minerals with 8-hydroxy-quinoline Karunakaran and Neelakantam), 448.

Multiple Fourier series (Chandrasekharan), 229.

Multiplicative functions of two arguments, a new identical equation, and its applications to Ramanujan's sum C_M (N) (Venkataraman), 518.

Naphthalene series, studies, XI, XII, XIII, XIV (Desai and Waravdekar), 332, 333, 382, 389.

Phyllanthus niruri, the bitter principle (Krishnamurti and Seshadri), 357.

Plane orbits, conditions, in classical and relativistic fields (Narlikar and Karmarkar), 451.

Plant insecticides, chemical examination, I, II, III (Rao and Seshadri), 344, 365, 465.

Populnin, constitution (Rao and Seshadri), 456.

Pterocarpus marsupium Roxb., wood, fixed oil derived from, chemical examination, I, II (Bhargava), 496, 501.

Raman spectrum of chloroform, overtone and combination lines (Rao), 510.

Surfaces, aging, of solutions (Rao and others), 277.

Surface tension, equilibrium, of aqueous solutions of nekal BX and the effect of salts (Krishnappa and others), 261.

Umbilical projection (Mandan), 433.
